PROFESSIONAL SUMMARY

Analytical and detail-oriented Data Analyst with strong expertise in data modeling, SQL database optimization, automated MIS reporting, and statistical analytics. Proficient in transforming high-volume unstructured datasets into business insights using Python, Power BI, Advanced Excel, and SQL. Proven track record in developing interactive KPI dashboards, streamlining automated ETL workflows, and driving data-backed decision-making for business operations.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Languages & Databases:** Python (Pandas, NumPy, Scikit-learn), SQL, DAX, Power Query, Excel & Google Sheets.
- **BI & Visualization Tools:** Power BI, Tableau, Excel (Pivot Tables, VLOOKUP, Macros, Power Query), Streamlit, Google Sheets.
- **Analytics Methodologies:** Exploratory Data Analysis (EDA), Data Cleaning & Wrangling, ETL Automation, KPI Development, Financial & Operational Reporting, Statistical Modeling, Root Cause Analysis.

INTERNSHIP EXPERIENCE

Digisnare Technologies

Bengaluru, India

Data & Operations Analyst – Summer Intern

Apr 2025 – May 2025

- Cleaned and validated 10,000+ operational customer datasets using Excel and Python, performing multi-source data reconciliation to achieve 100% data integrity for internal audits.
- Engineered automated weekly MIS reporting workflows using Power Query and Power BI, saving 8+ manual operational hours weekly and accelerating management decision cycles by 35%.
- Collaborated with cross-functional teams to track key performance indicators (KPIs) and optimized operational reporting routines across 3 major internal channels.
- Designed interactive KPI tracking dashboards in Power BI, giving senior leadership real-time visibility into operational bottlenecks and service SLA compliance.

PROJECTS

LoanScope Financial Analytics & Verification Web Platform | *SQL, Python, Data Modeling* May 2026 – Aug 2026

- Designed a normalized SQL database schema to manage loan, credit, and customer portfolio data, accelerating query performance speed by 30%.
- Automated financial data verification and compliance rules for structured and unstructured customer documentation, reducing data ingestion errors by 25%.
- Built automated risk-assessment algorithms to monitor credit quality metrics and track portfolio financial health for early risk intervention.

Superstore Operational & Commercial Analytics | *Power BI, Power Query, DAX*

Aug 2026

- Processed and modeled 25,000+ commercial transactional records using Power Query to establish a centralized relational star-schema data structure.
- Formulated 15+ complex DAX measures to calculate regional profitability, monthly growth trends, and inventory turnover efficiency metrics.
- Built automated executive reporting dashboards that streamlined regional review cycles across 4 enterprise business divisions.

Sentiment Analysis & Client Feedback Analytics | *Python, Streamlit, Pandas, Scikit-learn*

Jul 2026 – Aug 2026

- Developed an NLP application using Scikit-learn to parse and classify 50,000+ customer feedback records into sentiment categories with 89% accuracy.
- Built an interactive Streamlit application to visualize real-time feedback drivers, enabling operations teams to respond quickly to service degradation risks.

EDUCATION

CHRIST (Deemed to be University)

Bengaluru, India

B.Sc. Computer Science and Mathematics

Jul 2024 – Apr 2027

St. Peter's School

West Bengal, India

Class X – 83% (May 2020) | Class XII – 75% (May 2022)

CERTIFICATIONS, LEADERSHIP & LANGUAGES

- **Certifications:** McKinsey Forward Program'26 (Enrolled), AI Fundamentals (IBM), Data Analyst Internship (Digisnare Technologies), Power BI for Beginners (Simplilearn), Intro to Python (Simplilearn).
- **Leadership & Operations:** Coordinated registration logistics and operations for 300+ participants at a Rotary Club event with zero operational delays.
- **Languages:** English, Hindi, Bengali, German.
