PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in data collection, extraction, cleaning, validation, transformation, reporting, and dashboard development. Skilled in Excel, SQL, Python, Pandas, Power BI, Tableau, and AI-assisted workflows. Strong analytical thinking, attention to detail, problem solving, process improvement, and stakeholder communication.

TECHNICAL SKILLS

- **Data Operations:** Data Collection, Data Extraction, Data Cleaning, Data Validation, Data Transformation, Data Reconciliation, Reporting.
- **Analytics & Tools:** Excel, Power BI, Tableau, SQL, Python (Pandas, NumPy, Scikit-learn), Power Query, DAX, Google Sheets.
- **Core Competencies:** Analytical Thinking, Attention to Detail, Problem Solving, Process Improvement, Stakeholder Communication, Team Collaboration.

INTERNSHIP EXPERIENCE

Digisnare Technologies

Bengaluru, India

Data & Operations Analyst – Summer Intern

Apr 2025 – May 2025

- Cleaned and validated large-scale customer operational datasets, flagging inconsistencies and improving data validation accuracy for downstream reporting.
- Built and automated weekly reporting workflows across key operational metrics using Excel/Power BI, reducing manual report preparation time.
- Assisted in reconciling multi-source operational data, identifying and reducing duplicate records to improve reporting reliability.
- Contributed to Power BI dashboards tracking daily operational KPIs, presented to the internal operations team.

PROJECTS

Sentiment Analysis | *Python, Scikit-learn, Streamlit, Pandas, Plotly*

Jul 2026 – Aug 2026

- Built an NLP web app using TF-IDF vectorization and Logistic Regression to classify text as Positive, Negative, or Neutral, achieving 89% accuracy on a labeled dataset of 50,000+ samples.
- Designed an interactive Streamlit interface displaying the top 10 influential keywords driving each prediction in real time.

Superstore Operational Analytics | *Power BI*

Aug 2026

- Cleaned and modeled 25,000+ records from the public Superstore dataset using Power Query, building a star-schema data model.
- Authored 15+ DAX measures to track sales, profit, and regional KPIs across 4 regions, cutting the time needed to manually refresh and re-check reports.

Voice Translation App for Indian Languages | *Speech-to-Speech Interface*

Jun 2026 – Jul 2026

- Co-developed a prototype voice translation interface supporting multiple Indian languages, targeting low end-to-end latency for near real-time conversation.
- Implemented error-handling and retry logic to improve translation reliability across test cases with simulated network interruptions.

LoanScope Financial Analytics & Verification Web Platform

May 2026 – Aug 2026

- Designed a normalized SQL relational database schema for loan and customer data, improving query structure and reducing analytical query execution time by 30% versus the initial unindexed design.
- Built data verification and validation rules for unstructured customer inputs to improve downstream data quality before ingestion.

EDUCATION

CHRIST (Deemed to be University)

Bengaluru, India

B.Sc. Computer Science and Mathematics

Jul 2024 – Apr 2027

St. Peter's School

West Bengal, India

Class X – 83% (May 2020) | Class XII – 75% (May 2022)

CERTIFICATIONS, LEADERSHIP & LANGUAGES

- **Certifications:** Data Analyst Internship Certificate (Digisnare Technologies); Power BI for Beginners; Introduction to Python; NPTEL Advanced History.
- **Leadership:** Coordinated registration logistics for 300+ participants at a Rotary Club event with zero reported delays.
- **Languages:** English, Hindi, Bengali, German.
